

Tough Rack

Ruggedized racks series

DESCRIPTION

The Tough Rack series is the ultimate rugged rack for marine & land programs. Rugged, modular, interfacing with endless accessories.

KEY FEATURES

- Slim & strong - 55cm width, still 19-inches inside.
- Easy installation on mobile shelter or vessel - welding free.
- Capability for EMI/RFI resistance built in the structure.
- Unique profile for fixing any needed accessory without taking space of 19-inch.
- Easy adoption for I/O panels and cooling systems.
